

## 12 Week Coaching Program – Articulate Storyline

This program will guide you step by step through the creation of learning using Articulate Storyline and you will have the skills to create eLearning that works and keeps your learners wanting more. By the end of this program you will also have a fully developed and functioning eLearning module based on your content; and have the capability and confidence to create many more, on any topic.

<i>Week</i>	<i>Topic</i>	<i>Details</i>
One	<b>The Not So Accidental Designer – Design for Success</b>	Effective analysis, storyboarding, questioning and working with subject matter experts (SMEs)
Two	<b>Getting familiar with Storyline again – The SL Anatomy</b>	Reviewing all the elements of a Storyline file and making sure all features are being used to their potential
Three	<b>Escaping the Blank Screen of Doooom – The Power of a Template</b>	Ensuring a solid grounding through smart use of slide masters, feedback masters, branding and interactive slide templates
Four	<b>States and Layers and Triggers – Oh My!</b>	Grasping the power of states, layers and triggers in creating learning, including more productive ways to build your learning
Five	<b>The Big Reveals – Hotspots, Tabs, Markers and Other Interactions</b>	Add intrigue and diversity through using markers, tabs, hotspots and other interactive elements
Six	<b>Success with Images, Video, Audio and More – Visual Tenacity</b>	Improve learner retention through proven use of media with a healthy mix of images, audio and video – used wisely throughout your learning
Seven	<b>Just Ask More Questions – Quizzing With Purpose</b>	Everything you need to know about creating knowledge checks and quiz questions, question banks and results slides – going beyond the simple multiple choice and into engaging quiz types
Eight	<b>Screen Recording Like a Pro – The Key Considerations</b>	Capture any process, step by step using screen recording in Storyline – important lessons in getting the right setup, capture and blended approach
Nine	<b>Variables to the Rescue – Doing More With Less</b>	Open up endless creative possibilities with variables, from personalising your learning to advanced branching scenarios
Ten	<b>Advancing the Interactivity – Sliders, Dials and More</b>	Add amazing interactions and get creative using sliders and dials to get your learners involved and in control of their learning
Eleven	<b>Bringing It All Together – Let’s Get Publishing</b>	Prepare your learning for distribution to your learners and ready for the LMS – explore all publish options including clever ways to get feedback
Twelve	<b>Beyond The Norm – Engagement Tips and Inspiration For Future Success</b>	Setting up for future success through access to further FREE resources and training to help keep you motivated and inspired to create more great learning and continue to ‘wow’ your learners
